

## Description of Web Dataset

D.C. Sentencing Commission

July 3, 2018

The D.C. Sentencing Commission has prepared a public dataset containing data for felony counts sentenced in the District of Columbia Superior Court from January 1, 2010 through December 31, 2017. The data was produced in January 2018. The dataset contains all felony counts sentenced from 2010 through 2017<sup>1</sup> and includes demographic information such as gender, race, and age, as well as sentencing information such as the offense, offense severity group, and the type and length of sentence imposed.

Individuals interested in more extensive datasets may complete a data request form <https://scdc.dc.gov/page/data-request-form>.

It should be noted that data on sentence length is not available for homicide convictions with an indeterminate sentence due to the format of the data provided to the Commission.

---

<sup>1</sup> Initial and probation revocation sentences prior to 2017 are currently undergoing evaluation by the Commission and may be subject to change.
