

D.C. Sentencing Commission

June 14, 2023

The D.C. Sentencing Commission has prepared a public dataset containing data for felony counts sentenced in the District of Columbia Superior Court from January 1, 2013 through December 31, 2022. The dataset was produced in January 2022. The dataset contains all felony counts initially sentenced from 2012 through 2021, and includes demographic information such as gender, race, and age, as well as sentencing information such as the offense, offense category, offense severity group, and the type and length of sentence imposed. This dataset has also been divided into separate Excel files by offense category. The offense categories are: Homicide, Sex, Violent, Weapon, Property, Drug, and Other.

Individuals interested in more extensive datasets may send a completed Data Request Form (available at <https://scdc.dc.gov/node/1109316>) via email to scdc@dc.gov.
